25 September 1956

Chief, D/S

Film and Photograph Priorities for Graphics Register

1. The primary D/S consumers of GR films and photographs are S/CST and S/TR. Each of these branches has prepared statements of its priority interests in film and photo collection, which are attached to this memorandum.

2. This Division would like to take this opportunity to suggest that the services of GR would be improved greatly if a more careful and judicious routing of its materials would be made to consumer units in ORR. At present, considerable time is used in scanning photo collections which contain large amounts of materials unrelated to the interests of D/S branches.
